

# Gaby Regal Tang

**Proizvođa / Brand:** Gaby

**Šifra proizvoda / Code:** 50033

**Raspoloživost / Availability:** Na zalihi / In Stock

**Cijena / Price:** 15,00€

## **Opis / Description**

***Paracanthurus Hepatus***

**32cm/56cm**

The Regal Tang (*Paracanthurus hepatus*) is an intensely colored and beautiful marine fish. Also known as the Palette Surgeonfish or Hippo Tang, it is a popular representative of the reef community. Found in the coral rich areas of the Indo-Pacific region, the Regal Tang lives in small groups or in pairs. Juveniles feed mainly on plankton and algae while adults are omnivorous. It is a prized aquarium fish, though difficult to maintain in captivity.
