Opis / Description

This micro popper has the most amazing popping action and despite the very light weight the lure cast very well. The lure attracts attention from just about all smaller sized predator fish and is very versatile. Perfect for Aji, mackerel, saddled bream, needlefish, small leer fish and other predators, this lure is an excellent choice for top water micro game! Fishing Methods: After the lure lands try tiny twitching pulls with the rod tip low for “louder” popping action or with the rod high for more splashing popping action.
