Opis / Description

5,5 cm - 6 gr

Based on a 3D Scan of a baby sardine. The lure is not a popper, it is not a walker, it is both! The perfect “Hybrid” of a popping and a walk the dog lure. The Pop walker can perform a perfect WTD action or it can pop if the angler simply pulls it with the rod tip down! With the rod tip a bit higher, the Pop Walker “walks” with popping and splashing action. A great light game all species topwater lure with great casting distance! Fishing methods: With slow twitch while retrieve, this lure will perform a wide and slow WTD action, and with fast twitch will perform fast and sharp walk the dog action. With longer pulls and rod tip down this lure has a great popping action.
