Opis / Description

Keitech gets "Froggy" with the New Noisy Flapper™. The "Noisy Flapper™" buzzing frog has tremendous kicking action even at slow retrieve speeds. Our Patented leg design is the Key to this game changer. The sharp ribbed edges catch the maximum amount of water creating a furious buzzing action. The Bait is extremely durable and casts like a bullet.

Keitech Noisy Flapper™ Features:

- Deadly extremely-slow retrieve
- Great for low light conditions, weightless to help minimize splash
- Custom Keitech 2-tone color process
- Salt impregnated with Strong Squid scent
- The 3.5-inch Keitech Noisy Flapper™ has 5 baits per pack

Durability - The Noisy Flapper is made from two types of durable plastic. The top is a high flotation no salt plastic. The bottom is a heavily salted plastic. This combination provides the perfect balance. A hook slot provides the perfect rigging alignment and keeps the Noisy Flapper free of debris. The 5/8 oz. weight allows for super long casts even on heavy equipment.

Incredible Action - The thing that makes the Noisy Flapper special is its ability to churn water even at the slowest of speeds. The Shape of the body and the head design allows the bait to glide through cover. The leg position and patented design catch the maximum amount of water causing tremendous kicking action.

Packaging - The special blister package keeps the baits straight and preserves the quality of the baits. No expense was spared to deliver the perfect action to our customers.
