

Intech Tournament Jig Style PE X8 150 m Fluo Green

Proizvođa / Brand: Intech
Šifra proizvoda / Code: 55715
Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: 26,00€

Opis / Description

Intech Tournament Jig Style PE X8 is a unique new addition to the Tournament series. It is a cooperation of Intech and the Japanese manufacturer of fiber raw materials for braids. The idea behind the Tournament Jig Style X8 series was to create an 8-core braid tailored to the needs and characteristics of jig fishing. The braid has the highest parameters of abrasion resistance, a perfectly round cross-section and a minimum coefficient of elongation. The use of high-modulus polymer impregnation made it possible to make the braid ideally smooth and slippery, as well as significantly improved wear resistance indicators. In production, innovative raw materials IZANAS are used, which are widely used in braids of such brands as: Daiwa, Sunline, YGK, Duel, etc. This material can be safely called a technological discovery of the 21st century. It has a number of advantages: high linear strength, abrasion and UV resistance, low specific gravity, etc. We are confident that braided fishing line Intech Tournament Jig Style PE X8 will open a new era in the development of affordable braids, setting high quality standards with its appearance. When excellent casting distance, sensitivity, strength and abrasion resistance become the quality standard for jig braids.
