Šifra proizvoda / Code: 251291

Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: ~~249,00€~~ 199,20€

Opis / Description

Designed in accordance with the latest Japanese philosophies on how to extract the best of your egi qualities, these technical rods are ideal for this specialist fishing style.

Reduced butt lengths lower the wrist impact and also maximise the above handle rod length to help you achieve better casting distances compared with traditional egi rods of the same length. This additional blank space provides a better curve that can help hook squid more easily and avoid tearing off. Try these out for fishing squid and cuttlefish from ports, rock shores or when wading.

- Fuji stainless steel SiC K guides
- Fuji reel seat
- Very sensitive finesse blanks
- Toray 40T carbon
- Maximum long cast and line management guide setting
- High quality EVA handles
- Deluxe rod bags
