If you can't beat 'em, troll 'em! This unique trolling lure combines eye-catching flashing with real-touch feeling and glow details. Even though this lure has been designed for trolling, it can also be used effectively for casting, so it works well for inshore squid fishing too. The real killer for this lure is the stunning action, combined with a dampened rattle system that produces a natural pulse sound with each jerk. It's a new secret weapon in squid fishing.
