**Šifra proizvoda / Code:** 32434

**Raspoloživost / Availability:** Na zalihi / In Stock

**Cijena / Price:** ~~5,50€~~ 4,95€

### Opis / Description

8 pcs in pack

Flit is a great choice for those who are never afraid to experiment in angling. Due to its rolling "frame" and special tabs on the sides, fantasy FishUp Flit allows achieving high performance while trying different types of jigging. Thanks to the side tabs that create additional resistance in the water, Flit is drowning more slowly while trying graded bouncing, twitching and bottom bouncing; and constantly moving legs make it look more teasing.

Doing sharp jerks make the lure literally flutter – hence the name!

You should also know that this lure belongs to "worms", so can be applicable in all kinds of "worm" methods. Besides that, FishUp Flit is highly effective when applied to various modifications of drop shot rigs.

1.5" and 2" Flit works best for small and medium-sized perch, as well as medium-sized pike. Zander and perch up to 1 kilogram can also be caught with it.

3" Flit can be perfectly used for catching not just big perches, but also for pike. Also excellent for use together with drop shot rigs.

Variety of colors and sizes of this lure ensures your right choice.

FishUp Flit – an outstanding lure for curious anglers!
