Opis / Description

The **Keitech Model III Swim Jig** is a revolutionary **Tungsten Swim Jig** design that combines a custom **Daiichi super strong weighted jig head with an exclusive SR-40 snap-on silicone skirt with a screw-in keeper**. When combined, the jig and skirt provide perfect alignment and balance and become totally weedless. The Model III Swim Jig was designed for use with the 4.8 FAT Swing Impact. When used together it becomes the deadliest lure in your arsenal. The weedless design allows the angler to utilize various techniques without ever picking up another rod. Cast it and retrieve on shallow cover, Flip or pitch it directly at the target, probe weed beds. The options are endless...

- **Keitech Model III Tungsten Swim Jig Features:**
- Tungsten head 30% smaller & harder than lead
- Teardrop keel head slices through cover
- SR-40 silicone hand tied on an exclusive snap screw keeper
- Custom Keitech designed 5/0 Daiichi hook
- Available in 1/4oz. & 3/8oz. sizes

The Tungsten keel design head provides a unique action.

The custom SR-40 skirt is hand tied to the screw lock keeper.

Custom Daiichi 5/0 super strong hook fits the 4.8 Fat Swing Impact perfectly.

Screw-lock skirt keeper holds the trailer firmly in place.

The **Keitech Model III Swim Jig** - The Model III Swim Jig provides the angler the ability to fish the Fat Swing Impact in situations that previously were not available. The screw-in keeper eliminates the weed guard and positions the custom 5/0 heavy duty

Daiichi jig head in perfect alignment to the Fat Swing Impact trailer. View the action movie to see Model III in action.
