Opis / Description

Expand your horizons and truly enjoy every moment of fishing!

A specially designed series of lure fishing rods made of 46T Toray carbon, extremely strong, sensitive and light, equipped with quality Fuji components. Casting distance, and enjoyment of playing with catch were the main guidelines for the development of this series of rods and result is a progressive action with a fast recovery tip which detects perfectly even slightest contacts with your egi lure. Just grab Horizon Distance Egi and enjoy with this special piece of tackle.

- Toray 46T carbon blank
- Light weight, perfectly balanced, sensitive with X-fast action
- Fuji K-concept tangle free stainless-steel guides, Alconite inserts
