

Major Craft Ceana

Proizvođa / Brand: MajorCraft

Šifra proizvoda / Code: 49201

Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: 100,00€

Opis / Description

Japanese company Major Craft, created the Ceana spinning reel, which represents an excellent choice in the field of Spinning and is perfectly combined with the company's rods.

The Major Craft Ceana reel is made of Carbon alloy material, which is highly resistant to seawater corrosion. The rotor is also made of the same material, giving to the reel low weight and great strength. The spool is made of aluminum and the handle has non-slip EVA material for comfortable handling even with wet hands.

The operation of the mechanism is supported by 7+1 stainless steel bearings.

It is available in 3 sizes to cover Light, to Heavy Spinning, while the 4000 size can also be used in shore and boat light jigging fishing techniques.

The most important provision of the company has to do with the fact that each reel has a unique serial number and an annual Guarantee of good operation, which can all the way to replacing the reel, if the performance can not be restored.

Technical Characteristics:

- Nylon With 30% Carbon Fiber Body
- Anodized Aluminum Spool
- Solid Aluminum Handle
- Stainless Steel Main Shaft And Ball Bearings
- By Processing All Metal Parts And Ball Bearings With Salt Treatment, It Is Less Likely To Rust.
