Silky smooth 8 strand braid braided with Japanese Micro-X manufacturing process using Ultra High Strength Polyethylene Fibres from IZANAS which allows for this braid to be thinner and stronger per mm than any other before.

The X8 construction and special surface coating makes Dangan braid X8 is a very user friendly 8 strand braid allowing you to concentrate on your fishing without having to worry about tangles.

Made in JAPAN.

Features:

Japanese X8 braid

Special F60 coating

Easy to use

Moderate tension and suppleness – reduced tangles

Reduced friction – increased casting distance

Superb for all aspects of lure fishing

Low stretch

Improved wear resistance

Increased sensitivity

Multicolour with subdivided 10m intervals.
