Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: 17,00€

Opis / Description

Weight: 60 g (2 oz)

Length: 12,6 cm (5 in)

Cord Ø: 0,8 mm / **Size:** 100 lbs

From the legendary Theos comes this version dedicated to the Shore Jigging technique. Versatile as in the VJ version, this Theos was conceived to be a highly customisable hybrid jig in terms of retrieving, profile and weight distribution. Made in Zinc alloy with reduced specific weight compared to the classic lead, this material increases its surface and gives the bait has a greater “flicker” effect when falling. It’s movements feature a remarkable side-to-side action which makes the jig way more attractive. It can be retrieved in short and long jerks slowly and with speed. It features eye-catching holographic inserts. Excellent when fishing close to the bottom in search of snapper, grouper and amberjack or in mid-water retrieved with wide jerks to accentuate the strong flashing and attract tuna (bonito, fine tuna, tuna) even from great distances. The Theos Shore Jigging has been equipped with a double assist hook; the generously sized hooks have been chemically sharpened and treated with a special finish that makes them more resistant to corrosion.
