Opis / Description

2 pcs in pack

The Major Craft Eely Shad is a particularly effective and versatile soft lure, designed to imitate a sand eel, a popular prey of marine predators.

This lure is available in several sizes: 7.5cm, 9.5cm, 13cm, and 16cm, with weights ranging from 4.1g to 39.2g, allowing it to be used in a variety of fishing situations, from the surface to great depths.

Major Craft Eely Shad is a versatile and high-performance lure, suitable for different fishing techniques and sea conditions.

Surface Fishing: For shallow water or when fish are hunting near the surface, the lighter 7.5cm and 9.5cm models are recommended. Their lightness allows natural swimming just below the surface, ideal with a linear or sawtooth recovery. These lures create a vibrating action that attracts predators even in low activity conditions.

Medium depth fishing: The 13 cm (22.3 g) model is suitable for medium layers of water. Use it with a stop-and-go animation to imitate an injured fish. It is perfect for attracting more wary predators, while remaining in the hunting zone where they are often found.

Deep fishing: The heaviest model, 16 cm (39.2 g), is ideal for fishing in deep water or strong currents. Thanks to its rapid descent, this model is effective in vertical jigging or during quick recoveries.

Low visibility conditions: In addition to its dynamic design, the Eely Shad is available in colors suitable for turbid or low-light waters, such as the 008/Chart Back White, 003/Pink or 002/Pearl White, providing great visibility underwater.

Each EELY SHAD comes rigged with high quality BKK hook. The hook is perfectly matched to the lure so they swim with the perfect action straight out of the box.

BKK means confidence with every hook set. Every hook made contains the expertise and

craftsmanship of over a hundred years of hook making and gives you the ultimate confidence when fighting fish.
