8 pcs in pack

Fish taste

Kraken Shad – like the legendary kraken, which didn't let any ship pass through the Strait of Gibraltar, our Kraken Shad won't allow any predator to pass either. A slender ripper, with a body shape resembling a bleak, roach, or any other tasty morsel, topped with a wide tail paddle. As we've accustomed you to the attention to detail of our lures, here too couldn't lack nuances such as scales, fins, and a large eye, serving as an excellent target. The subtle shimmer of the body combined with the tail action is a combination that pike and perch simply adore. But we're convinced that the Kraken will capture the hearts of not only "muddy-eyed" hunters, as it is designed for catching literally all predators, not just domestic ones, as it will be available in a wide, attractive range of colors, and also in six size variants, ranging from 2 to 8 inches, or 5 to 20 cm.

- CLASSICAL JIG HEAD OR TUNGSTEN - hook size #2 - 1/0, weight 2 - 10 g.
- CHEBURASHKA STRAIGHT HOOK - hook size #2 - 1/0, weight 2 - 15 g.
- DROP SHOT - hook size #4 - 6.
- SIDE STRAP - hook size #2-1/0.

BAITS 1.75"-3" – spinning or casting rod with a length of 180-213 cm when fishing from a boat or longer when fishing from shore, with a realistic casting weight of up to 15 g for finesse fishing and in water depths not exceeding 5-7 m. For greater depths or when using heavier jig heads than 10 g, it is recommended to choose a rod with a casting weight that meets our expectations during bait presentation. Reel size 2000-3000, braided

line 0.04-0.08 mm, and fluorocarbon or monofilament leader 0.12-0.14 mm or a delicate and subtle tungsten leader up to 5 kg.
