**Kraken Shad** – like the legendary kraken, which didn't let any ship pass through the Strait of Gibraltar, our Kraken Shad won't allow any predator to pass either. A slender ripper, with a body shape resembling a bleak, roach, or any other tasty morsel, topped with a wide tail paddle. As we've accustomed you to the attention to detail of our lures, here too couldn't lack nuances such as scales, fins, and a large eye, serving as an excellent target. The subtle shimmer of the body combined with the tail action is a combination that pike and perch simply adore. But we're convinced that the Kraken will capture the hearts of not only "muddy-eyed" hunters, as it is designed for catching literally all predators.
