

## Smith D-Contact 50

**Proizvođa / Brand:** Smith

**Šifra proizvoda / Code:** 56302

**Raspoloživost / Availability:** Na zalihi / In Stock

**Cijena / Price:** 16,50€

### **Opis / Description**

50 mm / 4,5 gr / fast sinking

A flat but heavy body of the lure with a slightly shifted center of gravity to the back allows for better casting properties and a fluttering effect. These lures have the best action when actively led with short, impulsive strokes (twitching) upstream, across and downstream. This distinguishes it from the vast majority of other models that stop working in a strong current and tip over. Thanks to the perfect stabilization and heavy body you can hit the wobbler where it was impossible before with maximum precision! If you are trolling for wary trout and other predators and need a stable bait with excellent flight characteristics that works best with faster leads or in flowing water then the Smith D-Contact is the best option!
