Proizvođa? / Brand: Gaby

Šifra proizvoda / Code: 50027

Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: 20,00€

Opis / Description

Carassius auratus auratus

60cm

The Goldfish is perhaps the world's most popular and easily-recognizeable freshwater aquarium fish. A member of the wide-ranging carp family (Cyprinidae), they were bred selectively in China starting more than a millennium ago for their striking coloration. Goldfish can come in a variety of shapes, sizes and colors. Historically, goldfish have been symbols of luck and prosperity for various societies and cultures.
