

Decoy Shrink Tube

Proizvođa / Brand: Decoy

Šifra proizvoda / Code: 48904

Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: 3,75€

Opis / Description

3,5, 4, 4,5 mm - 1 m in pack, 5,5 and 6,5 - 70 cm in pack

This heat shrink tube is ideal for protecting and strengthening the base of assist hooks. It shrinks with heat from a hair dryer, so it is easy to work with and is ideal for creating original assist hooks.

*The shrinkage start temperature is 90 degrees or higher. The indicated shrinkage value is around 115 degrees.

*It is possible to shrink the material using direct flame from a lighter, etc., but please be aware that this may cause heat damage to the assist lines, etc., resulting in a decrease in strength.

Decoy Shrink Tube je vrlo kvalitetna plastična cjevica za izradu assist udica. Navezani dio udice sa strunom i vrvom provucite u cjevicu koju onda zagrijete i ona se stisne te tako štiti od oštarih ribljih zuba.
