Effzett Predator Spinner #0

Proizvo?a? / Brand: DAM
Šifra proizvoda / Code: 805040
Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: 2,25€

Opis / Description
3 gr

This longish spinner blade runs with only a slight pull and spins tightly around the bait, making it especially effective in shallow water.

We are proud to be able to say that the working characteristics of all our spinners have been developed to absolute perfection. The shapes of the blades and the technology behind have been proven over the years with millions of sales around the world. The balance between the body and the spinner blade results in a streamlined, dynamic unit that is ideal for unusually long and precise casts. Our range is continuously being supplemented by successful new designs based on ideas received from interested anglers and careful analyses of catches by our testers on location. So you can totally rely on the working characteristics of EFFZETT® spinners! When the spinner makes its redational run correctly it sends out constant pressure waves that can be recognized by predatory fish from long distances, inviting them to attack. Compare the working characteristic and these models will convince you.
