Opis / Description

14,5 cm / 150 gr

This slow jigging, flat-sided lure features a hydrodynamic head shape that helps to eliminate tension during jigging. This innovative design is combined with outstanding flashing on the flat areas that will stand out even in deep low light conditions. The lure is also equipped with a built-in rattle and real fish scale details – it's designed to do an amazing job with minimum effort. The sinking action of the lure produces amazing spins, stops and sliding movements that will entice plenty of bites during the fall – perfect for the long fall slow style.

- Bright, effective flashing
- UV Active
- Built-in rattle
- Strong, durable finish
- Designed for strikes while falling
