Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: 15,00€

Opis / Description

51 mm / 5,5 gr / hook #10 / sinking

DUO Spearhead Ryuki 51S, an innovative fishing lure that combines enhanced user-friendliness with unmatched swimming performance. This exceptional bait has garnered significant attention from trout anglers since its initial release, thanks to its advanced design and meticulous attention to detail.

Unlike a simple weight upgrade seen in its predecessor, the Ryuki 50S, the 51S has undergone a comprehensive overhaul. Every aspect, from the body shape to the internal structure, has been meticulously reevaluated to create a model that surpasses all expectations.

A notable enhancement is the slight increase in body weight, surpassing both the 45S and 50S models. This added weight not only ensures easy handling, even with delicate bait finesse techniques, but also enables effective usage in turbulent currents and deeper waters. Anglers can now effortlessly manipulate this lure to entice trout across various fishing environments.

Despite its compact body size, the Ryuki 51S boasts amplified allure, courtesy of its redesigned features. The lure's action retains the iconic characteristics of the Ryuki series, preserving its proven effectiveness.

With the Spearhead Ryuki 51S, anglers can experience a fully redesigned model that offers enhanced usability while delivering exceptional swimming performance. Get ready to elevate your fishing adventures with this remarkable fishing lure.
