Cijena / Price: 15,00€

Opis / Description

46 mm / 5 gr / hook #12 / sinking

DUO Spearhead Ryuki 46S, a revolutionary fishing lure that combines enhanced usability with unmatched swimming performance. With its advanced design and attention to detail, this lure has captured the attention of trout anglers since its initial release.

Unlike a simple weight upgrade of its predecessor, the Ryuki 45S, the 46S has undergone a complete redesign. The body shape and internal structure have been meticulously reevaluated to create a model that surpasses all expectations.

One notable improvement is the slightly increased weight of the body, surpassing that of both the 45S and 50S models. This added weight makes the Ryuki 46S easy to handle, even with bait finesse techniques, and enables its effective use in thick currents and deep waters. Anglers can now effortlessly maneuver this lure to attract trout in various fishing environments.

Although the size of the body is smaller, the appeal of the Ryuki 46S is amplified, thanks to its redesigned features. The lure's action has retained the signature characteristics of the Ryuki series, maintaining its proven effectiveness.

With the Spearhead Ryuki 46S, anglers can enjoy a fully revamped model that offers improved usability while delivering the same outstanding swimming performance. Prepare to elevate your fishing experience with this remarkable fishing lure.
