

FishUp ARW Worm 2" (5,5 cm)

Proizvođa / Brand: FishUp

Šifra proizvoda / Code: 32401

Raspoloživost / Availability: Na zalihi / In Stock

Cijena / Price: ~~4,75€~~ 4,28€

Opis / Description

12 pcs in pack

ARW Worm is the result of painstaking work by creative team of FishUp. It was inspired by idea of creating a light compact bait with very flexible airy tail.

Softbait ARW Worm is most effective while making low-amplitude bottom bouncing. Varying different approaches like tossing, shaking, stirring with short and long intervals will lead to the best results.

Due to the unique design, the tail of worm is moving even at the slightest vibration of rod tip, and during the still time it rises above the bottom.

In majority of cases angling with ARW Worm ends up with perches catch, regardless of size and activity level. Pike and zander can also be caught with it. But it is not only limited to these types of fishes. Do not be surprised if after one bite there will be a non-predatory fish on your hook.

Ease of animating, compactness, and flexible airy tail of ARW Worm allows you enjoy large number of bites and caught fish.

FishUp ARW Worm is a real gift to fans of micro jig angling!

FishUp ARW Worm je rezultat neumornog rada FishUp kreativnog tima. Inspirirani idejom o stvaranju laganog i kompaktnog silikonca s vrlo fleksibilnim plivajućim repom.

ARW Worm je najučinkovitiji dok lagano skakuće uz dno. Najbolji rezultati dolaze uz lagano cimkanje i trešnju te izmjenu kraćih i dužih pauza u povlačenju. Zbog jedinstvenog dizajna rep silikonca se pomiće pri najmanjem pomaku vrha štapa, a u vrijeme dok miruje polako se odiže od dna. S ARW Wormom možete loviti grgeče, smučeve, pastrve i klenove, neke nepredatorske vrste poput crvenperke, babuške ili šarana te sve LRF morske riblje vrste.

ARW Worm je lagan za vođenje, kompaktnog je tijela i fleksibilnog plivajućeg repa te omogućava mnoštvo grizova različitih ribljih vrsta.

U paketiću se nalazi 12 silikonaca dugačkih 55 mm.
